<b>Description Of Work:</b>	<p>This was a stellar experience from beginning to end. Large range of products to choose from. Prompt courteous service, job completed on time. The design work was great. Its a small kitchen, I wanted a dishwasher that needed to fit in a small area. I have one, that is the envy of some of my widow friends, who also have small kitchens. My kitchen flows into a dinning room, the design and flow of the two rooms is lovely and attractive. The appliances, cabinets, counter tops and all the extras are wonderful and a perfect fit. I love it all. I highly recommend Cabinet Brothers. Quality, service, integrity, price, the extra touch, they have it all.</p> <p>I occupy the lower level of a large 3 story home with a walk out lower level. There was not a kitchen on my level. So the design and installation had specific details and requirements. All of which were met. Started on time finished in a timely manner. Workers were neat and polite.</p> <p>Working with Cabinet Brothers was a REAL TREAT.</p>

**Description Of Work:** My kitchen was in need of remodeling, it was completely gutted. I needed cabinets and a counter top. Because of the size of my kitchen I needed assistance with how to get the most storage space out of the room. Cabinet Brothers designed an efficient situation for my kitchen.

**Member Comments:** It went very well, I have a very small kitchen and most show rooms and magazine examples show for very large kitchens. Cabinet Brothers assisted me in finding and choosing exactly the right fit for my kitchen with the cabinets and the counter top. They were there to answer all of my questions and were happy to assist with all of my concerns. I found them to be extremely professional. I am happy with the work provided as well as with the cost and will definitely use them in the future and I would recommend them to others.

**Description Of Work:** Len designed the kitchen exactly how my husband and I wanted it and was very attentive to specific details. We were going for a retro 50's look for half of the kitchen and it turned out awesome! We always get compliments on our kitchen when we have guests.

**Member Comments:** The whole experience was wonderful, from the first phone call to the installation and the final product. Customer service at Cabinet Brothers is terrific.

**Home Build Year:** 1950

**Description Of Work:** My wife and myself went to many big box stores ( Home Depot,Lowes Menard's and so on ) looking to replace our out dated kitchen cabinets.The service and knowledge of the employees at these stores is not very good, at all,and the prices for the quality of the cabinets is way off.Cheap cabinets and big price and the smaller stores we went to had better cabinets but bigger prices. A friend of mine told me about Cabinet Brothers and I was a little leery but he told me I would not be disappointed.So we took a chance and went to their showroom and I was really surprised at the many different selections of cabinets and counter tops that they had.Also they had all kinds of bathroom cabinets and accessories My wife wanted white cabinets and they sure have a lot of different colors of white cabinets with glazing or no glazing .To me white is white but not to my wife..I can say she went through all the different shades and the selection was big. I was sure the salesman Lenny was his name was going to throw us out of the store with all the time my wife was taking, but he was so nice and polite and had the answer to everything we asked him ,this guy knows his stuff. Our salesman came up with ideas that we didn't even think of, we moved the stove and the fridge and managed to get two more cabinets of extra storage.We had a set amount we were going to spend and we were maxed out on just our kitchen existing cabinets at the other stores.We are so thankful the prices were so reasonable with Cabinet Brothers we even got to add a island and stayed in our budget that really made me happy. I must say we are so happy we got more quality and more cabinets by going to Cabinet Brothers then any store we looked at and I highly recommend them to everyone I know who is looking to remodel their kitchen or bathroom. My mother in law was looking for a new counter top and so I told her about Cabinet Brothers so she went there, She was thrilled with the selection of counter tops that she bought her quartz counter top from them and has just raved about her salesman Glen and the store, what a wonderful experience she had and the insulation it was fast and the crew was very professional and how great everything looks.

**Description Of Work:** We recently replaced the cabinets in our kitchen. We were looking for a fully accredited/certified provider and found such with Cabinet Brothers. They were able to provide detailed design drawings which made us feel comfortable with their expertise. We were able to select our cabinets from a wide selection in terms of price and quality. The designer/salesperson was extremely knowledgeable and responsive. Though Cabinet Brothers does not perform installation, they referred us to an installer who did an excellent job. I highly recommend Cabinet Brothers.
